1* χ/χ Chiselmarks only. Lacau $\mathbb{F}$ which looks possible, but not at all certain. Read 10 in light of B12C?

2* Chiselm., like --- .

3* Chiselm. --- . Stroke after $\mathbb{F}$ seems certain. Therefore $\mathbb{F}$ hardly possible.

4* Lacau $\mathbb{F}$. Did he see more? Now χ/χ , read 10 ?

5* So Lacau with sic, to. sic

6* --- $\Rightarrow$ seems certain, not part of det. χ/χ is certain.
