1* Spells 94-97 are given here, because they contain inter alia a variant of Spell 89. The M. texts seem to regard them as one spell, whereas the B. texts have subdivisions. Curiously enough the variant of Spell 89 is not such a subdivision.

2* This MS. is so fragmentary that the length of the lines can be determined only approximately.

3* The MS. is now lost except a fragment; see p. 85, 3*. As regards the rest of the MS. my text is a compilation of the published text (Rec. de Trav. XVI 131) and Lacau's corrections (Sarcophages I 130 f.)

4* This publication is also our only source for part of M37C; Lacau cit. 133: les variantes du texte imprimé sont empruntées à 28041 (M37C). For the upper part of ll. 25 ff. we have Lacau, Sarcophages pl. XVII.

5* Traces insufficient, they suggest:

	B3K	B/C ^a	B/C ^b	B/K	M3C	M28C	M31C	S2C ^a	S2C ^b	S1C ^c	S1C ^d
