

- 1* This spell occurs again as part of Spell 221.
- 2* Rest of title at end of spell, 166 b.
- 3* Although it is impossible to judge how much of the lacuna at the end of l. 278 is needed for the conclusion of the preceding spell, it is probable that there was a (red) title, since this is the rule in this part of T1h.
- 4* This is a suitable title of Spell 172, which follows without mark of separation in this MS.
- 5* m hr-ntr probably at end of spell.
