1* It is probable that the title filled the entire lacuna (≈ 3 sqq.). See 214 a. The lacuna is too short for *h3* (Osiris) N. *tn* or the like.

Notes of p. 211.

- 1* † from copy Passalacqua; now lost.
- 2* Traces in the beginning of the lacuna do not suit sm

- 3* \angle , \circ ?
- 4* Δ was added later.
- 5* -, Δ or a fortuitous dash.
- 6* The lacuna (l. 31) is too short for the title.
 \hat{N} \square \square \square \square \square \square suits the space.
- 7* Publication \wedge .
- 8* This reading seems probable.
- 9* Publication \int .
- 10* Publication ζ , read ζ .
- 11* Difficult traces \int .
- 12* The reading seems certain \int .

Notes of p. 214-215.

- 1* This restoration suits the space and the usage of this MS.; see l. 84 (242 a).
- 2* See 212, 1*.
- 3* Not much space; perhaps room for \circ .
- 4* wn was added later. \sim certain, \sim .
- 5* Abnormal signs, \mathbb{K} .
- 6* \int ; does the dash belong to the sign or is it a?
- 7* The shape of \square is abnormal, \mathbb{H} .
- 8* In this MS. the beginning of the spell is different, see 215 f.
- 9* Publication $\frac{\square}{\square}$, $\frac{\square}{\square}$?

- 10* Publication $\frac{\square}{\square}$, $\frac{\square}{\square}$?

Spell 225
