1\*  $\square$ , det. fund.t.  
 2\*  $\Gamma$ B2L,  $\Gamma$ B2P, like the finger.  
 3\* Illegible, but traces of red, which show that B14 belongs to the group B2L-B2P. The space available for the text of this group, the arrangement of the signs in these lines of the MS being very crowded; cf. 13e. 11 d was probably written in a split column.
